Who Can Benefit?

• Contractors
• Material Subs and Suppliers
• Project Inspectors
• Specification Writers

The successful adoption of these improvements will need to be a team effort; therefore both agencies and contractors are the target audience.

Tack Coat Best Practices Workshop

I-Hotel and Conference Center- Alma Mater Room
1900 S. 1st St., Champaign, IL 61820

DATE: December 14, 2015
Pre-Registration Required

TIME: 12:00 pm – 3:30 pm
PDHs: 4

DESCRIPTION
The workshop offers owners and contractors the opportunity to find out more about the latest in tack coat technologies and best practices and emphasizes the importance of providing a long lasting bond between asphalt layers.

OUTCOMES
At the conclusion, participants will be able to:

• Identify best practices for reliable tack coats.
• List strategies to improve the usage of tack coats.
• Identify resources for implementing best practices into standard practice.

TOPICS INCLUDE

• Importance of Tack Coats
• New Materials
• Application Rate and Temperature
• Tack Coat Materials Selection and Handling
• Tack Coat Specifications and Manuals
• Quality and Inspection
• Testing and Best Practices
